Careers - electronic sources

English 10

Lake County Public Library eLibrary Card

... provides access to many electronic sources, including databases for school research

What are electronic databases?

An **electronic database** is a searchable collection of resources, including articles from academic journals, magazines, and other materials.

Think of it as a searchable collection of reliable articles.

Internet Search Engine 😒

The Internet is a vast sea of information (and misinformation) with **no organization**.

While there are exceptions, information on the Internet is generally **not evaluated for accuracy** and may be incorrect, misleading, or biased.

A search engine (like Google) often returns an **overwhelming number of results** with no quick way to narrow them down or ensure they relate to your topic.

Websites come and go.

Difficult to cite.

Electronic Databases 🏐

Paid for by the library so you have free access to **high-quality, reliable information**.

Content is **evaluated for accuracy**.

Information is **stable**.

You can find databases relating specifically to your topic.

Electronic databases offer options to limit or expand your search to find the articles you need.

Usually super easy to cite.

Career Cruising

High-quality information and easy to cite!

- 1. From <u>Edison Library website</u>, select "general" tab and click purple "LCPL Access Digital Resources" link
- 2. Click blue "See All Databases" link

Back of Title Page (t.p. verso)

pub. date

Pamphlet File

Look at index and ask librarian if you would like to see a pamphlet.

Please do not refile! Leave pamphlet on your table when you're done with it.

Cite using MLA

Title of Pamphlet. Publisher, Publication Date.

Career as a Librarian. Chicago Institute for Career Research, 2005.

Other Things...

- If your career is quite specific, you might need to be more general with your research.
- Keep track of all source information.
- Be nice to library materials! <3
- Use your time wisely.....
